

IND iMobile Trading

Although latest market information and immediate order placement are essential, today's traders don't need to be chained to their PCs anymore. Our trading solution, IND iMobile Trading, gives users the ability to trade real-time via their mobile devices anytime, anywhere. It allows customers to make quick trading decisions, and fulfill simple or complicated transactions.

IND Banking Front-Office (BFO) provides banking services that enable banks to build a comprehensive front-office system. These services, based on industry standards, are available in standard product packages.

IND iMobile Trading application supports several markets, such as forex, futures, CFDs and equities. This easy-to-use and ergonomic application with comprehensive trading tools is ideal for beginner and professional traders alike. It is designed to work with all web enabled mobile devices with 240x320 screen resolution. IND iMobile Trading doesn't require installation on the phone even so it provides high-level security just like a PC. The application leverages every feature that new handheld devices can provide: mobile internet, large and colorful displays and touch-screen control.

A Swiss army knife for traders

- Channel and functional extension to the existing web-based trading system: same authentication, business logic and core system connections;
- Trading execution in three taps or clicks;
- Tools for technical analysis – fit a mobile device screen;
- Runs on mobile phones, PDAs or other web enabled devices.

Trading anytime, anywhere

- With IND iMobile Trading, customer can trade easily on any market, anytime.
- On-the-go functionality: trading, quotes, advanced charts, technical analysis tools, fundamental information, news, alerts, watchlists, market statistics, account management.
